

WORK WITH VIE

WHO WE ARE

Our Story

We have lost our loved ones to complications of hypertension and type 2 diabetes. We have also seen too many people in our communities die from similar complications. We know that many of these deaths are preventable. We want you to know that too.

We are passionate and committed to stopping these deaths by helping people identify and manage risk factors. This will help to prevent these diseases, delay disease progression, and avoid complications and deaths.

On a more personal note, we are on our own journey to reduce these risk factors and we need you to join us.

Vision

We envision a world where everyone is empowered to beat hypertension and type 2 diabetes risk factors.

Mission

We are on a mission to hold the hands of every individual who is at risk and walk with them through the life-long journey of reversing behavioural and metabolic risk factors for hypertension and type 2 diabetes at any time and from anywhere with the support of their loved ones.

Values

- V**isualize a world without hypertension and type 2 diabetes
- I**nform everyone about a future without hypertension and type 2 diabetes
- E**ducate on how to achieve that world
- D**evelop tools to power that world
- I**nfluence everyone to take the step towards that world
- A**ctivate that world in every space
- L**ead that world in thought and action
